

2023 SEPA UTILITY EXECUTIVE COHORT

FOUR EVENTS • PEER RELATIONSHIPS • CARBON-FREE SOLUTIONS

About the Cohort

The Utility Executive Cohort provides an exclusive space to uncover solutions to your carbon-free challenges. The cohort is a vigorous mix of candid discussions, expert speakers and facilitators, case studies, and best practices that generate ideas and help create the blueprint for your clean energy transition. Executives build lasting relationships with peers that provide a resource for the future.

The Content

- Building tomorrow's workforce
- Advancing energy equity
- Driving customer choice and stakeholder engagement for long-term success
- Analyzing investments, stranded assets, and uncertainty on the path to carbon-free
- Preparing for fleet electrification and managed charging
- Understanding approaches to sharing customer data and AMI insights
- Increasing resilience while retiring generation

The Program

The cohort includes two in-person forums and two virtual events. The in-person forums are paired with networking events and the two virtual events will continue the priority topics and discussions.

In-person cohort events will be held:

May 15, 2023
SEPA Utility Conference
Atlanta, GA

September 11, 2023
RE+ Annual
Las Vegas, NV

The Cost

The cost of the Utility Executive Cohort is \$15,000, which includes the registration fee for the Utility Executive Mission to Denmark in 2023.

To RSVP or for additional information please contact us today.
